Choose a Senator

—from between Jacob K. Javits, Republican, and James B. Donovan, Democrat. Our preference is for Javits on the basis of experience, a demonstrated gift for statesmanship, and a quality of liberalism which approaches the definition of that much-abused term.

CPYRGHT

His re-election will assure continuation of distinguished Senatorial representation for this state. His colleague, Senator Kenneth B. Keating, whose seat is not at stake until 1964, also has served with great distinction.

It should not be forgotten that Keating, whose sources of information apparently are superior to those of our intelligence services, alerted the nation from the platform and the Senate floor to the fact of Russian missile bases in Cuba.

He had the information. He had it right. He held onto it like a bulldog in the face of bitter criticism, some of it sneeringly implying that he was a liar and a war monger.

We have a good team in the U. S. Senate.
